Badalona

ACADEMIC TRAINING

Audiovisuals Systems Engineering

2016-2023

Universitat Pompeu Fabra
Barcelona

High School

2013-2015

Scientific modality
Institut Thalassa
Montgat

Middle School

2010 - 2013

Institut Maristes Champagnat
Badalona

KNOWLEDGES

Different languages of programming

- C++
- C#
- Python
- Matlab
- Java
- MIPS

Basics knowledges about Deep Learning

Functioning of neural networks of type:

- Standard
- Convolutional
- Recurrent
- Autoencoders
- Generative Adversarial Networks

Videogames creation

Using engines like:

- Unity
- Renpy

Basic knowledges about segmentation and image processing

Knowledges about video equipment and systems

- Creation and edition of programs using Adobe Premiere
- Knowledges about Digital Data Transmission (codification/decodification of signals & modulation/demodulation of signals)
- Equipment management
- SRT and RTMP contributions
- IP Video, Streaming, satellites
- Management of satellite signal reception equipment
- Programming and control of the recording system in digital format
- Control of signals, assignments, quality measures and technical control

WORK EXPERIENCE

- Teacher of STEAM activities in IGNITE SERIOUS PLAY S.L. for Primary School students (10/01/2022-28/02/2022)
- Technician in the Central Control and Traffic department of the Corporació Catalana de Mitjans Audiovisuals (CCMA) (28/02/2022-07/01/2024)
